CLUB PICNIC:

We had about 25 club member's show up for the fish fry; sure would have liked to have more. The potluck was good and we all had a good time, had plenty of fish thanks to all those who donated fish.

MESKAN REPORTS:

Jim Meskan reports that fishing is still slow, but he has talked with numerous club fishermen who are catching good numbers of walleye at depths of about 30 feet. The Trout are not biting as yet, but that should pickup later in September.

Jim said that he was asked to look at a 4 lb. Pike caught near Marcus; this is the 4th pike he has heard of being caught, two locally and 2 at Northport. He has also heard of several pike being caught in the Spokane arm so the pike are probably scattered all over the Lake.

The life jacket program is gradually being put in place, the self-service rack at the Marina is being used, and when used they are being returned. Sounds encouraging – remember if you have any extra child's life jackets bring them to the meetings and Jim will get them to the right place. Jim has taken 7 life jackets to the Forest Service for use at their campgrounds at local Lakes. There are still un-used vouchers for new life jackets at Clark's All Sports.

The Spokane Walleye Club donated a \$250 check for the Life Jacket Program last month. If you happen to see one of their members, be sure & say Thank You.
